

YES YOU CAN! INCOME DISCLOSURE STATEMENT

Effective Date: October 17, 2017

Last Revised: October 17, 2017

Coach Income

Coaches don't have a set salary and their income is determined by their performance in our Compensation Plan. The income that Coaches can achieve depends on the amount of time and effort they can devote to their businesses, as well as their inherent sales skill. There are no short-cuts or work-arounds for success.

Other than the Coach Business Pack price of \$95 and annual Coach renewal fee of \$65, there are no required purchases to become, stay, or achieve success as a Coach. The income figures below do not factor in any expenses incurred by a Coach in running her business.

Of our 6,744 Coaches in the United States and Puerto Rico, 4,426 were considered Active in our Compensation Plan¹. The following figures show the income that Yes You Can! has paid to our Coaches so far since our launch in October 2016.²

- Average Monthly Income of All Coaches: \$50.43
- Average Monthly Income of Active Coaches: \$213.31
